by Maslina Resort

P H A R O M A T I Q

Why does Maslina call it 'Pharomatiq'?
'Pharos' pays tribute to the ancient name of Stari Grad, while
'aromatic' honors Hvar Island's healing plants and herbs.

“Bolje spriječiti nego liječiti”
*“An ounce of prevention
is better than a pound of cure.”*

~ HYDRO POOL ~ AROMATHERAPY STEAM ~ FINNISH SAUNA ~ EXPERIENTIAL SHOWERS ~

GUIDELINES

While you are free to experience our Aquathermal facilities as you wish, there are suggested ways to get the most from them:

- Using our facilities before a spa treatment allows you to prepare the skin and body. Let our products soak into your skin after your treatment.
- Remove any makeup first and shower to remove deodorants and fragrances.
- Start in the lower temperatures.
- Head to the gentle warmth of the Hydropool for 10 minutes.
- Use the Finnish Sauna or Aromatherapy Steam for 5-10 minutes.
- Try a cold contrast. Cool down between each heat experience by taking a cool shower.
- Rest. We recommend relaxing on our shaded outdoor deck with a refreshment.

COLD PLUNGE POOL

With a temperature between 10°C and 13°C, our Cold Plunge boosts circulation, reduces inflammation, and invigorates your senses. This refreshing hydrotherapy experience enhances recovery and revitalizes both body and mind.

HYDROPOOL

The Hydropool is a warm water, whole body experience. Body jets gently massage at the optimal temperature to restore balance and release tension. The swan neck jet relieves the neck and shoulders.

HAMMAM

(by appointment only)

With relative humidity levels between 50-80%, the high humidity encourages gentle sweating, helping to detoxify and cleanse the body.

AROMATHERAPY STEAM ROOM

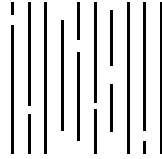

With a temperature between 40-47°C, humidity levels in the Steam Room reach 100%. Enjoy the aroma and feel the warm healing energy. Muscles relax, and joint pain can ease. The high humidity has a positive, moisturizing effect on the skin.

FINNISH SAUNA

The Finnish sauna is lined with fragrant wood. A traditional stove with hot stones emits dry heat for body purification and relaxation. Temperatures reach 95°C, and humidity stays low at 3-15% for a dry heat experience.

EXPERIENTIAL

After exposure to the heat of the Finnish Sauna or Aromatherapy Steam Room, enjoy a Cooling Rain Storm in our Experiential Shower. This multi-sensory experience improves circulation and is fully immersive.
